
Create a Group!

AVTTS encourages anyone to form a group about any climate or environmental topic or initiative. We'll support you!

Ocean Friendly Port Alberni

AVTTS recently partnered with Surfrider Canada to create Ocean Friendly Port Alberni. We promote Ocean Friendly practices like ending plastic waste. Look for their next Beach Cleanup soon!

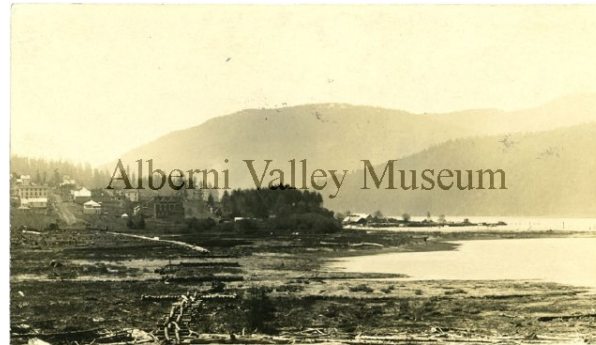

Dry Creek Restoration Group

What if the Somass Mill Lands were returned to their natural shoreline and Dry Creek restored to its original course? That's the goal of the Dry Creek Restoration Society!

Reconciliation - Decolonization

AVTTS acknowledges that it does its work on the un-ceded and stolen territories of the Tseshah and Hupacasath Nuu-cha-nulth people.

Decolonization will be a critical part of our society's transition to a better relationship with each other and our natural environment. We do this work with seven generations in our hearts.

Partnerships and Advocacy

AVTTS is non-partisan. You will often find our members advocating for initiatives at City Council or Alberni Clayoquot Regional District meetings.

We also maintain good working relationships with our Member of Parliament and Member of the Legislature in order to advance causes and issues that further our transition to a fossil fuel free future.

We have close relationships with the Alberni Valley Food Security Society, Alberni Climate Action, Women's Food and Water Initiative, and Alberni Valley Nature Club.

Alberni Valley Transition Town Society

We are a community environmental group of groups!

AVTTS supports many people and initiatives focused on the climate emergency and transitioning away from fossil fuels and the extractive, consumptive, economy.

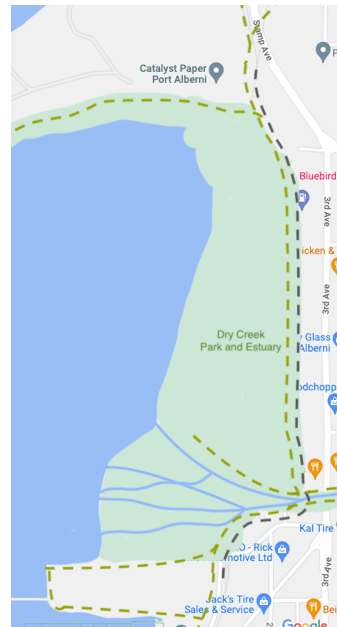

Alberni Valley Transition Town Society - Join Us!

All welcome Public Meetings: 3rd Wednesday of the Month - 6PM at Char's Landing
